Summary

Full Stack Web & Mobile Developer

-Passionate about crafting seamless digital experiences, I specialize in developing robust web and
-mobile applications from concept to deployment. With expertise across the full technology stack, I
-thrive in dynamic environments where innovation and problem-solving are paramount.

Professional Skills:

-Frontend Development: HTML, CSS, JavaScript (React, Angular, Vue.js,Next.js)
-Backend Development: Node.js, Django, Flask
-Mobile Development: React Native, Java (Android)
-Database Management: SQL, MongoDB, Firebase
-DevOps & Deployment: Docker, Kubernetes, AWS, Azure

Tools & Technologies:

-Version Control: Git, SVN
-IDEs: Visual Studio Code, Xcode, Android Studio
-Testing & Debugging: Jest, Mocha, Selenium
-UI/UX Design: Adobe XD, Figma

Highlights:

Led cross-functional teams to deliver scalable solutions on time and within budget.
Implemented responsive designs and optimized performance for diverse platforms.
Collaborated with clients to understand requirements and translate them into technical specifications.
Actively involved in the open-source community, contributing to projects and sharing knowledge.
Let's connect to discuss how we can leverage technology to drive innovation and achieve your business goals!
